

Ergotron® FX Series

low-profile mounting solution

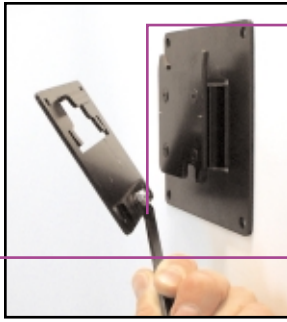

Highlights

- Places monitor less than 1" from wall
- Allows monitor or display to be attached to or removed from wall quickly and easily
- Solid and stable platform for touch-screen monitor compatibility
- Weight capacity is 30 lbs (13.6 kg) for the FX30 and 75 lbs (34.1 kg) for the FX75
- Steel construction for long-lasting durability
- FX Series products can be attached to most any sturdy vertical surface such as machines, walls, cabinets, etc. The FX75 also may be pole mounted or used with the Ergotron Command Post
- VESA® Flat Display Mounting Interface (FDMI™) Standard compliant for easy monitor attachment
- LIFETIME warranty

The FX Series (Fixed) products, FX30 and FX75, allow a flat panel monitor or display to be mounted to a vertical surface like a picture hung on a wall. Once installed, these modules provide a rock-solid platform, even for monitors with touch-screen capability. To remove a monitor from the wall, the user simply moves the quick-release lever to the side and lifts off the monitor. Reinstallation is just as easy!

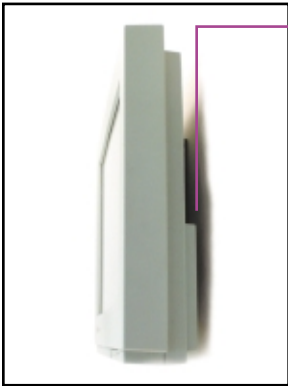

FX Series products include a quick-release lever for easy attachment and removal of monitor. These 2-piece brackets install directly to the wall/surface and the back of the monitor.

Create a computer workstation in a small area.

FX30 Mounting Bracket:

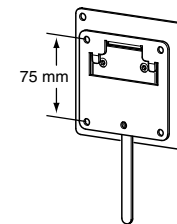

FX30 places monitor only .77" (20 mm) from wall for an extremely low profile.

Mounts directly to surface, (fasteners for mounting unit to wall are customer supplied).

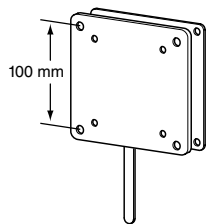

VESA® (FDMI™) Standard plate attaches directly to the back of compliant monitors.

FX30: Both sizes ship standard with product.

75 mm Interface

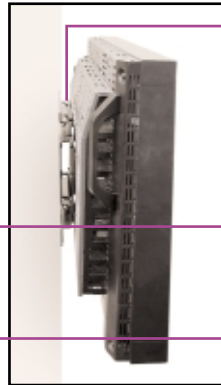

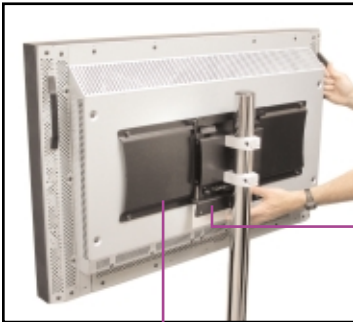

100 mm Interface

Fasteners for mounting unit to wall are customer supplied.

FX75 Mounting Bracket:

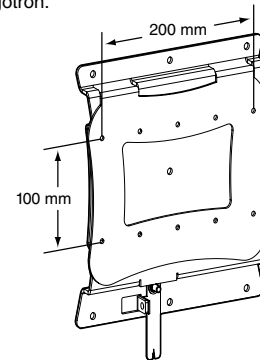

FX75 places display less than 1" (25 mm) from wall for an extremely low profile. Unique quick-connect design latches monitor in place with touch-screen stability.

FX75 may be mounted directly to a vertical surface, pole, or Ergotron Command Post.

Custom Interface Bracket.

FX75: Standard VESA MIS-E, 100 x 200 mm monitor mounting. For custom interfaces, contact Ergotron.

Fasteners for mounting unit to wall are customer supplied.
