

mydlink™ Home

Siren

Loud audio alarm to warn you
when your mydlink Home sensor is triggered¹

Siren

The mydlink™ Home Siren is a smart audio warning device with 6 different sounds built-in. It's easy to setup, connects to your home Wi-Fi and provides instant audio alerts. It works with other mydlink Home sensors, such as the Motion Sensors, Door & Window Sensor and Monitors, to provide a loud audio warning when motion/sound is detected or a door is opened¹. Whether you are at home or away, push notifications will alert you whenever the Siren is activated. mydlink Home enables you to create a smart home without complicated set up, installation costs or monthly subscription charges.

Peace of mind

Instant audio alarm, with volume up to 100 dB, when a linked mydlink Home Sensor or Monitor is triggered¹.

Protect your home

Cameras or motion sensors can trigger a warning sound to scare off potential intruders or a water sensor can trigger an audible alarm when water leak is detected in your home.

6 different sounds

Equipped with six different sounds: emergency, fire, ambulance, police, door chime, arm/disarm sounds, you can customise your smart home by selecting the appropriate sound effect or alarm for whenever a different event occurs.

Easy to Set Up

Plug

Connect the Siren to an electrical outlet.

Press

Push the WPS button to connect to your home Wi-Fi

Control

Download the free mydlink™ Home app¹, follow the simple setup instructions

Easy to set up

Simply press a button to securely connect to your home Wi-Fi network with Wi-Fi Protected Setup (WPS). No additional control hub needed.

Loud audio alarm

Up to 100 dB to warn you instantly when a linked mydlink Home Sensor¹ is triggered.

6 different siren sounds

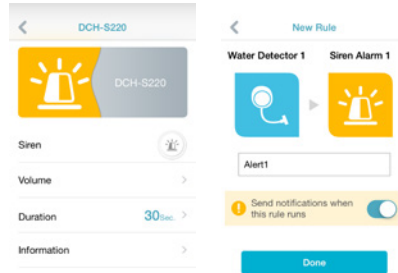

You can customise your smart home by selecting the appropriate sound effect or alarm for whenever a different event occurs.

Do-it-yourself

Easy to set up and manage with the mydlink Home app.

Push notification

Receive instant alerts on your smartphone and tablet.

Your mydlink Home

mydlink Home allows you to start with a single smart device and add more when you want to. The unique mydlink Home App² for iOS and Android smartphone and tablet gives you control of all your other mydlink Home devices. You can even set up automation rules to make your home smarter.

No hidden charges. Seriously.

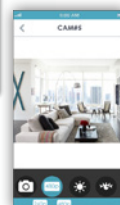

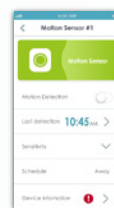

Complete your mydlink Home

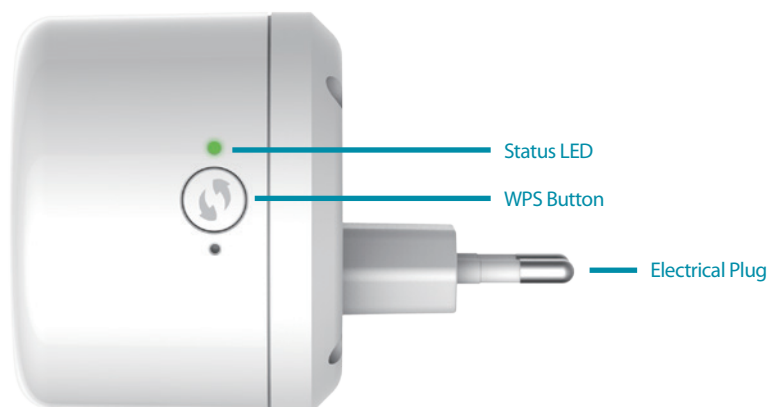

Why not add a **Wi-Fi Motion Sensor (DCH-S150)** to detect when motion is detected in your home

...or add a **Monitor 360 (DCS-5010L)** to see what's happening at home when you are alerted
