

Connect a USB-C Host Computer with a USB-C Device

The Accell USB-C to C USB 3.1 Cable allows easy connection between your USB-C (also known as Type-C) host computer to a USB-C device. With reversible USB-C connectors the cable connection works in either direction. Able to charge, transfer data to and power a connected device, this USB-C to C cable with ultra-compact connectors is incredibly powerful.

Send Data and Power over a Single Compact Cable

Supporting up to 3A charging output, this full-featured USB 3.1 cable can transmit up to 60W of power, ideal for safely charging or powering USB-C devices. USB 3.1 SuperSpeed+ compliant, this Gen 2 rated cable can transfer data at blazing fast speeds of up to 10Gbps.

Optimum Performance and Compatibility with E-Marker Chip

Built into the cable's USB-C connector is an electronic marker (e-marker). The e-marker is an integrated circuit that enables the connected devices to identify the capabilities of the cable. This feature ensures optimum performance between the connected devices and the cable.

All Operating Systems Compatible

Fully USB 3.1 compliant, this USB-C cable supports all USB-C devices and operating systems, including Mac, Windows and Google.

Product Features:

- Reversible USB-C connectors
- USB 3.1 Gen 2 rated, up to 10Gbps
- Supports up to 3A/60W power output
- E-marker ensures compatibility
- 20x faster than USB 2.0 (480Mbps)
- 2x faster than USB 3.0 (5Gbps)
- 2.6 ft. (0.8m) cable length

Package Includes:

- USB-C to C USB 3.1 Cable
- User Guide

Warranty:

- Lifetime Replacement
