

Integrated Security System

Wireless Alarm DVR Kit

1x 720P DVR, 4x Megapixel cameras, 3x wireless alarm sensors, 1x antenna, 1x siren and 2x Key fob

- Record in 720P (1280x720) High Definition resolution, 200% larger than 960H (960x480).
- Detection of intruders triggers push notifications to Smartphone/tablet, e-mails, sirens and video recordings.
- Support up to 4TB HDD, recording continuously from 4 channels for 60 days. (Days of recording may vary depending on settings).
- Wide-Angle 720P Megapixel high resolution cameras provide crystal clear images for video recording.
- Long range night vision up to 30meters (98ft) for 24/7 video surveillance.
- Weatherproof metal casing ideal for both indoor & outdoor applications.
- Simply scan QR code to pair alarm devices with DVR.
- Configurable actions offers a greater flexibility in adapting alarm sensors to your security system.
- Wireless alarm system expands easily as your security needs grow.
- Wireless alarm devices with pre-installed batteries ideal for covering the less frequented area or area where cameras are not deployed.
