

# USB to IEEE-1284 Printer Cable

## Features

- Full compliant with USB Spec.
- Fully compatible with USB printer device class Spec.
- Fully compatible USB host device driver available
- Bus Powered (From PC via Connecting Cable)
- Hardware initiates and manages automatic negotiation for the fastest protocol available
- Supports standard PC parallel port register based operations
- Supports multiple logical channels
- Max Throughput: 1.2 MBits/Sec (ECP Mode)

## Specifications

| Function               |        | UC-1284                |
|------------------------|--------|------------------------|
| Cable Length           |        | 180 cm (6')            |
| Connectors             | Input  | USB Type A Plug        |
|                        | Output | Centronics 36 pin Male |
| Power Mode             |        | Bus Powered            |
| Case                   |        | Plastic                |
| Weight                 |        | 110g                   |
| Dimensions (L x W x H) |        | 43 x 53 x 19.5 mm      |
