JBOD Docking- and Clone Station with USB 3.0

A cabinet full with HDDs to work with is a good reason to use this double docking station. It is for 2.5" as well as for 3.5" SATA HDDs. The aluminium casing provides firm standing and is good looking. The 2.5" HDDs might have a height of 9.5 or 12.5 mm, even 15 mm. Due to its power supply, the dock also runs HDDs, which need to be provided with 12 V. USB 3.0 and UASP Support accelerate the transfer of huge data, e.g. of movies, enormously.
