HYPERX

CLOUD II

PRO GAMING HEADSET

HEAR WHAT YOU'VE BEEN MISSING.

HyperX® Cloud II features a newly designed USB sound card audio control box that amplifies audio and voice for an optimal Hi-Fi gaming experience. Pinpoint your opponents' location in the game and strike before they see you coming.

This next-generation headset generates virtual 7.1 surround sound with distance and depth to enhance your gaming, movie or music experience. It's hardware driven and plug and play, with no driver needed.

HyperX Cloud II has a digitally enhanced, noise-cancelling microphone with automatic gain control functionality and echo cancellation enabled through the USB sound card. The result is optimised team communication and in-game chat in intense battles.

HyperX Cloud II is certified by TeamSpeak and optimised for Skype and other leading chat programs.

Detachable mic

100% memory foam

Closed ear cups

Pure Hi-Fi
53mm drivers

Open up a world of detail that other gamers will never know — the rustle of a camper's boot, the scuttle in a distant vent.

Pro-gaming optimised, HyperX Cloud II is USB-powered for PCs and Macs and 3.5mm stereo-compatible for PS4 and Xbox One[1]

Obliterate your enemy in peace. The closed-cup design helps with noise cancellation in gaming tournaments and other loud environments.
